## GRIFFITH'S DIRECTORY.

**Full of Valuable Information Concerning Greensboro.**

The new city directory prepared, compiled and issued by Dr. J. W. Griffith, has been turned out from the press and is ready for sale. After examing a copy we find it a valuable book.

From it we learn that the population of this city has been more than doubled in the past five years. This is a splendid showing. The directory says: "The population is made up of the solid yeomanry who are realizing the advantage to be derived by living in a live, active city, and who have moved in to reap the benefits from the schools, churches, etc. Her people are sociable, generous and conservative, and the stranger always finds a pleasant welcome within her borders.

"The hotel accommodations are first-class, four first-class hotels, besides numerous boarding houses, to be found in different sections of the city, making it possible to entertain any number who may come within her borders."

Then follows a description of the public buildings, churches, banks, cotton and tobacco factories, leaf houses, iron furnaces, spoke and rim works, lumber and building material, furniture factory, brick factories, foundries, flouring mills, etc; also her educational institutions, railroads, secret orders clubs, city government and fire department.

Then follows as complete a list of the names of every citizen of Greensboro, both white and colored, as it is possible to compile in a fast growing town.

A unanimous vote of thanks should be tendered Dr. Griffith for the excellent work he has done, and the sales of the book should be large enough to fully compensate and reimburse him for his labors and financial outlay. We commend the work to all.

## A SOUTHERN AMAZON.

**This Young Woman Tried to be a Soldier.**

The latest acquisition to the role of Amazons is a young woman of Atlanta, Ga., who gives the name of Lizzie Gammon, says an exchange.

This young woman was so anxious to go and fight the Spaniards that she resorted to strategy to accomplish her purpose. She dressed herself in a full suit of United States regimentals and was on her way to the recruiting office to enlist, when a policeman, noticing her peculiar walk, likewise her smooth and pretty face, concluded she was a woman masquerading in men's clothes and arrested her.

Miss Gammon was much disappointed when her sex discovered and had a "good cry" when she found she could not enlist.

**Extra Work For The Mints.**

Washington, July 12—Director of the Mint George E. Roberts is bending every energy to supply the demand for coinage and at the same time perform the additional work devolving upon the mints by reason of the provision of the war revenue law requiring the coinage of $1,500,000 silver dollars a month out of the bullion in the treasury

"We are working the mints two shifts of eight hours a day now," said Mr. Roberts. "The New Orleans mint was today put to work on silver dollars: the Philadelphia and San Francisco mints began the job last week. The intention is to first comply with the demands of the law, and then, so far as our facilities will permit, supply the calls for other coin. At present there is an immense stock of gold bullion on hand and just as fast as possible we shall put that into coin.

**A Diplomat.**

Tom—I knew Tilly loved me, but the only way I won her was by telling her that she was just like Spain.

Bob—Like Spain? How was that?

Tom—Why, I told her she seemed bound not to surrender till all was lost, and then—she flung out a flag of truce.

**Editor Sent to Jail.**

City of Mexico, July 12—Juan Tovor, one of the editors of El Tiempo, a rabid anti-American newspaper of this city, has been sentenced to eighteen months' imprisonment for slandering the memory of Benito Juarez, Mexico's great reform president.

With a view to securing a share of the $60,000,000 Spang estate, J. L. Kalbach, a Reading confectioner, will make a trip to Germany.

# YELLOW JACK AMONG TROOPS

**Information Refused Regarding Extent of the Disease.**

## THE ADMINISTRATION ANXIOUS.

**General Toral Definitely Refuses Unconditional Surrender — Army Ready—Placing Guns.**

By Wire to THE TELEGRAM.

Washington, July 13—The administration is anxiously awaiting definite news of the situation at Santiago. There is some show of impatience being manifested. The news contained in General Shafter's despatches received to date serve only to add to the painful uncertainty of the situation.

It is reported that General Shafter cabled the department this morning that the bombardment by the ships was ineffectual. It is known positively that Secretary Alger has wired Gen. Shafter for immediate details concerning the situation but no reply had been received up to two o'clock.

Gensral Miles, in his reports, signifies that strictly routine work is being done. He has made no reflections on General Shafter's mode of operations. It is the opinion of some that a grand assault on Santiago took place this morning, but this is discredited by the officials.

REFUSED TO SURRENDER.

Off Juragoa, July 13—All negotiations for peaceful surrender were ended last night in utter failure when General Toral definitely refused unconditional surrender. It seems now as if the city must fall by the force of an American assault.

The army now awaits only the word from its general for the final struggle. When the attack will be made depends upon the time which ensues before all the batteries can be gotten to the front as it is definitely settled not to begin the final attack until all the heavy batteries are properly placed.

The roadbeds are in bad shape, making the moving of the heavy artillery next to impossible. It may, possibly, be twenty-four hours before an open engagement takes place.

Siboney is in ashes tonight, burned by order of the health authorities for the purpose of ridding the hospital and camp of unhealthful and dirty buildings and driving away scores of Cuban followers whose presence was a serious inconvenience to the surgeons. Almost every building was fired and the occupants, being mostly Cubans, fled to caves in the nearby overhanging hills.

YELLOW FEVER AMONG TROOPS.

Washington, July 13—Despatches conveying the information that yellow fever has broken out among our troops in the vicinity of Santiago were received at the war department today. President McKinley, Secretary Alger, Gen. Corbin and Gen. Sternburg are in conference and every precaution will be taken to prevent the spread of the disease.

Hospitals and a special quarantine camp will be established and immune doctors and nurses ordered to Santiago and stringent measures will be adopted to prevent refugees from Santiago from coming in contact with our troops.

All information as to the extent of the dread disease among the American troops is refused by the war department. As near as can be learned the disease broke out in the vicinity of Siboney which was ordered burned by General Miles.

[The burning of Siboney is recorded elsewhere in the dispatches of today.—Ed. Telegram ]

TO REINFORCE SHAFTER.

Chattanooga, July 13—The first Ohio regiment broke camp this morning and marched to Ringgold to await transportation to Tampa. The troops are splendidly equipped and they will be started to reinforce General Shafter immediately. Large quantities of supplies are arriving.

TRIED TO RUN BLOCKADE.

Washington, July 13—Signal Officer Sawyer, stationed at Key West, reports to the war department that the ship San Domingo was wrecked off the Isle of Pines, Cuba, while trying to run the blockade. Her nationality is unknown but it is believed that she was a Spanish ship carrying supplies to Blanco.

**The Legend of the Shell.**

The first 13-inch shell thrown by the Texas into the fortifications at Santiago bore the following inscription upon it:

"In God we trust
This shell to burst
And knock the Dagoes into dust.
In memory of the Maine, from her living sister, the Texas."

## HERE'S A WHITE ELEPHANT.

**War Department Perplexed About the Disposition of Prisoners.**

Washington, July 12—An order will be issued by the war department tomorrow in regard to the disposition of the Spanish prisoners war captured by the army at Santiaga. As it is expected that all Toral's forces will be taken, this government will have about 20,000 captives on its hands.

Military authorities decline to tell what action will be promulgated. Two propositions have been under consideration, one to establish a big stockade with barracks at Galveston for the confinement of enlisted men, and another to send common soldiers back to Spain in neutral vessels, retaining the officers here.

The danger of a yellow fever epidemic among the captives has been the principal argument against the establishment of a prison in this country, while the proposition to return them to Spain has been received with considerable favor.

**Dr. Thomas Appointed.**

A special from Winston to the News and Observer last night says:

Dr. H. J. Thomas, of this city, made application to the Navy Department several weeks ago for an appointment as surgeon. It was accepted, and today he received a dispatch, asking him if he could go to Santiago. He replied that he was ready to go anywhere the authorities might wish.

# THE GERMAN GUNBOAT RAN

**When the Cruiser Raleigh Opened a Hot Fire.**

## A FIGHT IN THE PHILIPPINES.

**Thirty Thousand Reinforcements Expected--Will Enable Dewey to Control Islands.**

By Wire to THE TELEGRAM.

Manila, via Hong Kong, July 13—The insurgents on July 6th, reported that the German gunboat Irene, which was in the Subig bay refused to permit them to attack the Spaniards at Grande Island. Admiral Dewey promptly despatched the cruisers Raleigh and Concord to investigate the matter.

On entering the bay the Raleigh opened fire on the forts whereupon the German ship slipped her cable and steamed out of the harbor by another channel.

In response to the demand of the Americans the Spaniards surrendered everything and five hundred were taken prisoners. The Irene explained her action by saying that she interfered in the cause of humanity, and offered to hand over the number of refugees on board. This Admiral Dewey refused to accept.

LUZON IN REVOLT.

Madrid, July 13—A German cruiser brings the report that all Luzon is in revolt against Spanish rule. A letter was brought from Augustine which says all is quiet but expects an attack by the Americans on the fourteenth when reinforcements will arrive.

FURTHER NEWS FROM MANILA.

Manila, July 7, via Hong Kong July 13—The insurgents made a vigorous attack on the Spanish yesterday with little results. They shelled the Spanish trenches and captured many guns. There were over one hundred men killed on each side.

The Americans and insurgents are acting independently. Both are conducting their own operations and are hoping to evolve an agreement.

The influence of the insurgent leader General Aguinaldo, is not believed to be of any great extent or duration, After the Spaniards are expelled it is believed there will be a state of chaos unless the Americans assume control of the islands in force.

The Americans are postponing operations until they are fully prepared for any contingencies. Thirty thousand reinforcements are expected soon and when they arrive Admiral Dewey will be enabled to effectively control the Philippines.

A SPANISH YARN.

Madrid, July 13—A dispatch received here today says the Americans attempted to land at Tayabocoa, but were repulsed and took refuge with a warship which had just arrived. There were over two hundred shots fired and only one Spaniard wounded. The same despatch reports an American transport aground at Punta Caney.

HOMEWARD BOUND.

Port Said, July 13—The Spanish fleet was sighted off Cape Burles at midnight last night heading for Spain.

**Sagasta on the Peace Question.**

London, July 12—The Madrid correspondent of The Daily Mail says: Senor Sagasta, on being asked whether a decision had been taken regarding peace, replied: "No sir, but what remedy can there be but to make peace?"

The Ministerialists assert that the regular army in Cuba does not object to a conclusion of peace, but that the 20,000 volunteers are determined to continue the war.

Trinity College, Cambridge, England has received a bequest of $50,000 for the purpose of founding a fellowship or scholarship as a memorial to Bishop Allen, who held the See of Ely during the first eight years of Victoria's reign. The gift is that of the late J. G. Allen, grandson of the bishop.

Eleven men were killed in the water works tunnel under Lake Erie, at Cleveland, yesterday, as a result of explosion of gas.

## SPANIARDS GOOD FIGHTERS.

**A Rough Rider's Experience in Hot Engagement.**

Washington, July 12—Lieutenant Cash, of the Rough Riders, who reached Washington today with his arm in a sling, and who was warmly greeted by Secretary Alger, said the men he left are cheerful and full of enthusiasm, and had no complaints of suffering to make. He added:

"The Spanish are desperate fighters and very good marksmen. Their fire was extremely hot and well directed, and our great trouble was that we could not see them.

"We simply had to fire where we thought they might be. During the two engagements I was in I saw but two Spaniards. Both of these I saw in the first engagement. In the second I did not get a chance to fire, though I was in it for several hours, and was half-way up the hill when struck.

"At the first engagement near Siboney, where the Rough Riders were first subjected to such a galling fire, and where we lost a lot of men, we were not surprised. We knew that the Spanish were in ambush, and we were trying to beat them out."

When Lieut. Cash visited Secretary Alger the latter was in conference with Senator Allison. But the senator at once arose, and, bowing to the wounded Lieutenant, said: "After noon, sir."

**Sailed For Liverpool.**

By Wire to THE TELEGRAM.

Moutreal, July 13—Dubose and Caranza, the head of the Spanish spy system sailed this morning on board the Ottoman for Liverpool.

## DEMOCRATIC NOMINEES.

**For Judges of the Superior Court for North Carolina.**

First District—Geo. H. Brown, Jr., of Beaufort.

Second District—Henry R. Bryan, of Craven.

Fifth District—Thomas J. Shaw, of Guilford.

Sixth District—Oliver H. Allen, of Lenoir.

Seventh District—Thomas A. McNeill, of Robeson.

Eleventh District—W. A. Hoke, of Lincoln.

**Convention Dates.**

Second Congressional District, Wilson, August 31.

## IN THE EIGHTH.

There was a split in the republican congressional convention at Wilkesboro yesterday and two candidates were nominated. After convening, the roll of counties was called and responded in the usual way, after which the chairman appointed a committee on credentials composed of Linney men. There was a vigorous protest against this, but it did no good. Gag rule reigned supreme and the report of the committee was forced on the convention, thus debarring, as the reports say, all candidates except Linney.

This caused a bolt and a large number walked out of the convention. The coast then being clear and the decks stripped for action the "Bull of the Brushies" was renominated without the loss of a man.

After the Linney convention adjourned the anti-Linney men assembled and organized, appointing an executive committee which is to call a convention later and nominated another candidate. Another report has it that they actually nominate another man, Dr. J. O. Wilcox, a life long republican.

All this shows the insatiable thirst for political honors. It is nothing new, such scenes have been witnessed many times at republican conventions in this state. These skirmishes have characterized the republicans in North Carolina as far back as this writer can remember.

But, like a joint-snake; hit him with a stick and he comes all to pieces and you think he is dead. But wait. Before the ides of November the joints will all fit in their places again and both conventions will have been forgotten—will vanish like a mountain fog and there will be only one candidate: all the republican hosts will be united on him.

---

Spain's reluctance and unwillingness to begin peace negotiations may be attributed in part to the officers of the army, who contend that, notwithstanding the destruction of the fleets, they have not been whipped, and they do not wish to be deprived of the opportunity of upholding "the honor and dignity of the nation." And, further, the conditions upon which the United States would now accept a surrender are thought to be quite as onerous as they could possibly be after a long war, and that, this being the case, Spain could gain nothing by suing for peace now. Perhaps, in the eyes of Spanish rulers, the lives of the soldiers which could be saved would be nothing gained; but in the eyes of a humane government, knowing the inevitable result, this would be a weighty consideration.

---

Perhaps the ghost of Pharoh's army which was destroyed in the Red Sea while chasing the children of Israel, caused Admiral Camara to turn back when he reached that body of water in his eastern tour.

The season of the year is at hand now when you will frequently hear the citizens and newspapers of each town talking about how much typhoid fever there is in the next village or city and how free from the disease is there own town. And some of the yarns smell fishy.

---

Now that work has actually begun on a new passenger depot for Greensboro every one who has the best interests of the city at heart will rejoice. But for the foolish and asinary antics of Governor Russell in tampering with the lease question we believe the season of rejoicing would have come much earlier.

---

The railroads of North Carolina have promptly complied with the law in regard to the issuance of passes. With those papers willing to sell space at reasonable rates the railroads are making contracts and paying for their advertisements with mileage at regular rates. This is business and does away with the "free pass" idea, which really never existed with the newspaper men.

## GLADSTONE IN PARLIAMENT.

**Like an Elephant on the Rampage When He Was Excited.**

Gladstone's manner in Parliament is thus described by Henry W. Lucy, the stenographer who took down nearly every great speech the grand old man made for the past twenty years:

"The particular occasion referred to by Mr. Lucy was in 1873, when things were going wrong. The Premier came in from behind the speaker's chair with hurried pace. As usual when contemplating the delivery of an important speech, he had a flower in his buttonhole and was dressed with unusual care. Striding swiftly past his colleagues on the treasury bench, he dropped into the seat kept vacant for him. Then, turning with a sudden bound of his whole body to the right, he entered into an animated conversation with a colleague, his pale face working with excitement, his eyes glistening and his right hand vehemently beating the open palm of his left hand, as if he were literally pulverizing an adversary. Tossing himself back with equally rapid gesture, he lay passive for the space of eighty seconds. Then, with another swift movement of the body, he turned to the colleague on his left, dashed his hand into his side pocket as if he had suddenly become conscious of a live coal secreted there, pulled out a letter, opened it with violent flick and earnestly discoursed thereon.

"Rising presently to answer a question put to him as First Lord of the Treasury, he instantly changed his whole bearing. His full, rich voice was atuned to a conversational tone. The intense, eager restless of manner had disappeared. He spoke with exceeding deliberation, and with no other gesture than a slight outward waving of the right hand and a courteous bending of the body in recognition of his interlocutor. No matter how perturbed his manner before rising, once on his feet before the house, and his self-command was master of his actions; he became calm. dignified, stately. But, warming with his work, the Premier often proceeded through a series of gymnastic exercises that would have left an ordinary man of half his years pale and breathless. Sometimes with both hands raised rigid above his head; often with left elbow on the table, and right hand, with closed fist, shaken at the head of some inoffending country gentleman on the back benches opposite; anon standing half a step back from the table, with the left hand hanging at his side and the right uplifted so that he might, with thumbnail, lightly touch the shining crown of his head, he trampled his way through the arguments of his adversary as an elephant in an hour of aggravation rages through a jungle."—San Francisco Chronicle.

## A STRANGE MEETING.

**How the Governor of Georgia Came Upon an Old Friend.**

Governor Atkinson, of Georgia, tells this story at his own expense, says the Birmingham Age-Herald:

"It was during my recent inspection of the convict camps. Among other places I visited were the coal mines, and in order to make a thorough inspection, it was necessary to go down into the mines and see the convicts at work. Two guards accompanied me down. They showed me everything of interest and finally took me where the convicts were at work.

"As we approached them one of the convicts rushed over to me, crying: 'Good Lord!' Bill Atkinson, as sure as I live? I never expected to see you here. What on earth, Bill, did they convict you of doing?' I readily recognized the man as one whom I had known since my boyhood days."

## General News in a Nutshell.

The possibilities of the Celestial Empire as a market for American manufacturers are outlined in glowing terms by Charles Denby, Jr., who was formerly secretary of the United States legation at Pekin. "Within twenty years," says Mr. Denby, "there will be 20,000 miles of railway in operation in China. The internal development of the Orient has been begun. America's footing in Oriental trade will be broadened and our prestige in the far East greatly increased.

It will take some of the volunteer soldiers a long time to fully realize that there is a vast difference between civil and military law, but they are gradually learning that offenses which might be condoned in ordinary life are not glossed over in the army. A private in a southern regiment at Mobile struck his captain in the face while resisting arrest for disorderly conduct the other day. Within 24 hours he was courtmartialed and was on his way to a military prison to serve a sentence of two years at hard labor.

The London Spectator aptly characterizes the Spaniard as "the kind of a man who always leaves his revolver unloaded, and. discovering the fact, walks to his death unarmed lest anybody should suppose he is afraid."

It may not be generally known that a nephew of President Dole, of the republic which we have just annexed, is campaigning in the Philippines. He is Alfred Dole, of Company D, First California Volunteers. This command formed part of the first expedition to Manila.

The Yellow River, in China, has changed its channel four times in the past 1000 years, and the point at which it empties into the sea has from time to time moved up and down the coast a distance of 300 miles. Its floods have drowned over 10,000,000 persons during the past three centuries, and the destruction of property has been proportionate.

A coincidence worthy of note is the fact that the yard number of the new battleship Alabama is 190, which was the yard number of the famous Confederate cruiser of the same name built in an English shipyard during the civil war.

The Kansas volunteers at Chickamauga are practicing certain mysterious battle manheuvers calculated to strike terror to the hearts of the Spaniards in the field. One of the boys refers to this secret drilling in a letter to the folks at home, and says: "I would like to describe it to you, but it is not proper to do so, for nobody but us soldiers is supposed to know it."

The statute of General Wolfe has mysteriously disappeared from its accustomed place in Quebec, and no one seems to know what has become of it. Years ago, some British middies with with odd ideas as to "larks" carried off the queer old wooden memorial for a voyage to the West Indies, but it was subsequently returned.

## CRISIS HANGS FIRE.

**Senor Sagasta Must Decide as to Peace Negotiations.**

London, July 13—The Madrid correspondent of the Times says:

"The crisis hangs fire. The ministers still meet in council and the difficulties of retirement seem even greater than the difficulties of remaining in office. The conservatives are not prepared to accept office, and it is hard to imagine a Liberal cabinet without an undisputed Liberal leader. The logical conclusion is that Senor Sagasta must accept the responsibility of deciding whether or not to open peace negotiations."

**What is Worse Than Eczema?**

NOT TO BE ABLE TO GET

**Mrs. Joe Person's Remedy.**

Last fall I was a severe sufferer from eczema, which effected my face, hands and feet—it was a dry eczema, which would form scales and rough hands, and dry places, which could be cut off as if it were a corn. It was very annoying, especially on my feet. I tried everything I heard of, but nothing eradicated it from my system until at the earnest solicitation of friends, I tried Mrs. Joe Person's Remedy. I got one-half dozen bottles last spring; am now taking it and am almost entirely cured of the trouble; think it will only be necessary to use a few more bottles before I will be entirely well. The trouble effected my general health and I was fearfully run down, but since taking the Remedy am now perfectly well in health.

**Commodore Schley's Neighbors Celebrate His Great Victory.**

Frederick, Md., July 12—An enthusiastic demonstration in honor of Commodore Winfield Scott Schley and his brilliant victory at Santiago, was held in this city tonight. The commodore was born here in 1840 and many of those who participated in tonight's celebration were life-long friends of the naval hero. Hon. James McSherry, chief judge of the Maryland Court of Appeals, presided, and addressed the assemblage. Hon. E. R. Wood, of Frederick, and Mrs. Donald McLean, regent of New York Chapter, Daughters of the American Revolution, also delivered patriotic addresses. Resolutions were adopted, amid great enthusiasm, congratulating Commodore Schley upon his splendid victory. These were signed by the city officials, engrossed and forwarded to "The Vice-Admiral of the United States Navy."

**SCHLEY CREDITS SAMPSON.**

**He Says the Victory Belongs to the Fleet Chief.**

Washington, July 12—Commodore W. S. Schley has cabled to the Navy Department expressing regret at the controversy which has arisen regarding the officers who should have the credit for the victory of Santiago de Cuba on July 3.

The credit properly belongs he says, to the commander-in-chief. He says that Rear Admiral Sampson, in his official reports, will distribute praise to those deserving it.

Rear Admiral Sampson has cabled to the department declaring that there is no friction between himself and Commodore Schley. Naturally this information is most gratifying to the officials, who urge that the public suspend judgment until Admiral Sampson's official mail reports are received.

The cruiser Yankee will take 350 tons of ammunition to the fleet. All of the colliers are now coaling at Norfolk and will sail on Thursday.

**AN ODD COINCIDENCE.**

**Another Story Which Relates to Commodore Schley.**

In 1884, just after Commodore Schley returned from rescuing the survivors of the Greely Arctic expedition, the Massachusetts Humane Society presented him with a handsome medal for his achievement, says the Detroit Free Press, and Benjamin W. Crowinshield, one of the Bay State's great orators, was sent to Washington to make the presentation speech. On the way to the capital Mr. Crowinshield fell in with an old and prominent resident of Boston, who took the privilege of asking the orator what his mission in Washington was. In reply the old gentleman who shown the medal and told what was to be done with it. "Strange coincidence," mused the venerable gentleman from the Hub. "Forty-four years ago, in 1840, I rode over this same line and met General Winfield Scott. I was as inquisitive then as now, and asked him where he was going. He said that a son of his friend Mr. Schley had been named for him, and that he was going to Maryland to see the baby.—Philadelphia Record.

**If Bluff it Was Spain Has Taken Our Threat Seriously.**

London, July 13—The Madrid correspondent of the Daily News says:

Orders have been received by the Seville garrison to hold itself in readiness to proceed to the defense of the coast. It is believed the garrison's destination is a camp near Gibraltar. The order is much commented upon. The American consuls at Gibraltar and Tangier, it is said, have bought enormous quantities of coal, and the American colliers are reported to be between Cape Spartel on the northwest coast of Morocco and Cape Vincent.

Persons troubled with diarrhoea will be interested in the experience of Mr. W. M. Bush, clerk of Hotel Dorrance, Providence, R. I. He says: "For several years I have been almost a constant sufferer from diarrhoea, the frequent attacks completely prostrated me and rendering me unfit for my duties at this hotel. About two years ago a traveling salesman kindly gave me a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Much to my surprise and delight its effects were immediate. Whenever I felt symptoms of the disease I fortify myself against the attack with a few doses of this valuable remedy. The result has been very satisfactory and almost complete relief from the affliction." For sale by C. E. Holton.

He was vaccinated several days ago and Dr. Balsley, who vaccinated him says it took nicely. Dr. Balsley stated that the negro is probably suffering from vaccina, an ailment common among those who have been vaccinated.

A sick man can't make money That's because his brain wont work. A horse wont do work unless he is properly fed. Neither will a brain. If the brain is not kept in good condition with pure, rich blood, it wont produce much.

Men who fail, and men who don't, often have what they call "Nervous Prostration." Nine times in ten the nervous trouble is purely secondary. The real sickness is in their digestion and in their blood. If a man keeps his digestion in good order, and keeps his body full of pure, rich blood, he is never going to be very sick.

Johnston's Sarsaparilla is made for people who want to get well and stay well. Sarsaparilla is a simple, "grandmother" remedy, but it cures. It purifies and enriches the blood and sends it tingling to every part of the body. That is the way it cures all ailments of the brain and nerves—cures insomnia—cures dyspepsia, rheumatism, scrofula, and every other blood disease. It clears the complexion, plumps out the cheeks, and brings back the sparkle to lifeless eyes.

One Dollar is the price, and One thousand Dollars is the health-giving value of every Quart Bottle of **Johnston's Sarsaparilla**

## BRIEF LOCAL MATTERS.

J. A. Odell spent yesterday in Concord and returned home last night.

R. L. Woodard, we regret to learn, is confined to his home on Douglas street by sickness.

Prof. C. L. Raper, came in today from High Point and will spend several days with Dr. Grissom.

G. W. Koiner returned today from Piedmont Springs, where he has been recuperating for a few days.

Miss Irving Scales left this morning to spend a month at Cold Sulphur and Rockbridge Alum Springs, Va.

Miss Hettie Wrenn, who has been visiting at the home of Mr. C. H. Dorsett, left today for her home in Siler City.

The old reliable Vuncanon & Co., present a change of ad today. They are still selling Hire's Root Beer and first-class groceries.

Mr. Huffines began the work of tearing down the houses on Buchanan street yesterday, recently purchased by him from the Southern railway. He will begin work on his new brewery in a few days.

Brick are being placed on the lot recently purchased by Dr. G. A. Mebane near the corner of Spring and West Washington streets, preparatory to erecting thereon an elegant dwelling house.

Mr. S. B. Norris, the Carolina Shoe Company man, advertises some excellent bargains in shoes in local notices today. A big sacrifice sale of Oxfords and other lightweight goods has been inaugurated. See the notices for prices.

### They are Hustlers.

The up-to-date Odell Hardware Company yesterday received an order by telegraph from the Victoria Cotton Mills, of Rock Hill, S. C., for one hundred and fifty roving tins to be shipped by express. By 6 o'clock the goods were at the depot and were shipped on the 6:25 train. This is quick work but that is the kind the Odell Hardware Company have a "rep" for doing. They have a large mill supply department and as cotton mill orders are most always "rush" this department is always ready to rush. They furnish supplies for a large number of mills in North and South Carolina.

### They "Fout" on Sunday.

Sunday morning Clem Wood and Matthew Evans, two muscular sons of Ham while out near Hucomuga, became involved in a quarrel and in a short while were punching each other in the face with marvelous rapidity. Without either being seriously damaged the quarrel ended. Before 'Squire Pritchett yesterday afternoon the boys pleaded guilty to the charge of assault and battery. Judgment was suspended on payment of cost.

### Dr. Phillips in New York.

We note with pleasure that Dr. Jas. J. Phillips, formerly of Tarboro, son of Judge Fred Phillips, has received the appointment of attending physician to the out patient department of Roosvelt hospital of New York. The position is one of honor and distinction.

It is always a pleasure to note in these columns the success attained by our North Carolina boys in other states and the many friends of Dr. Phillips in North Carolina will be glad to hear of the fine progress he is making in New York city.—News and Observer.

### Discounting Danger.

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. B. Cooper of El Rio, Cal. "For small children we find it especially effective." For sale by C. E. Holton.

## THE PROXIMITY CHAPEL.

### The Plan Has Been Drawn and Now the Money is Wanted.

We were this morning shown the drawing made by Mr. J. L. Oakley for the new Methodist church to be built at Proximity. It will be a modest, but exceedingly neat little church 32x50 feet.

The building committee will soon be in need of funds to prosecute the work. All who have subscribed to this fund may be getting the change ready, the collectors will probably call in a few days, as we understand it is the intention of the building committee to begin and finish up the church as soon as possible.

### Regimental Band Departs.

Will Logan and his band have gotten off to Fort Macon at last, having left at noon in a special car. Will carried fourteen band men and fifteen recruits for the regiment. The band needs six more men to complete the number required but Will thinks he will have no trouble in getting them after he reaches Fort Macon, while if he had stayed here much longer he would have been compelled to go alone. His men kept dropping out and Will would have to get new men to take their places. A large part of the colored population was at the depot to bid the boys goodbye and the train pulled out amid loud cheers.

### Drivers on to Tampa.

One hundred mule drivers from Fort Myers and Alexandria, Va., passed through last night on a special train enroute to Tampa. About twenty-five of the mule "encouragers" were negroes of full African type who could do full justice to a pie at a single "swipe." They were a tough looking, noisy lot. The government does not furnish uniforms for the men who drive ammunition and provision wagons during a campaign. Their mules passed here yesterday.

Our baby has been continually troubled with colic and cholera infantum since his birth, and all that we could do for him did not seem to give more than temporary relief, until we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. Since giving that remedy he has not been troubled. We want to give you this testimonial as an evidence of our gratitude, not that you need it to advertise your meritorious remedy.—G. M. Law, Keokuk Iowa. For sale by C. E. Holton.
